Oxygen Deep Cleanse Facial - \$140

A Deep Cleanse facial with the added benefit of an oxygen infusing Jet Peel to promote hydration.

Jet Peel - \$115

Pure oxygen and saline solution are used in a revitalizing treatment. Oxygen plumps and heals the skin as it kills bacteria and cleans acne.

Microdermabrasion - \$115

Crystals gently buff to exfoliate, smooth skin texture, and diminish fine lines or acne scars. Diamond tip available.

Jet Peel or Microdermabrasion + Fruit peel \$125

Signature Treatments

Sircuit Oxy Twist- \$150

Three exfoliating treatments combine, includes two intensive retinol anti-aging peels followed by plumping and hydrating oxygen infused Jet Peel.

The Trio - \$150

Intensive resurfacing begins with microdermabrasion, followed by our hydrating Jet Peel, finished with healing LED light therapy.

Docere's Fire & Ice - \$115

Instant brightening, tightening and smoothing effects to encourage cellular renewal.

Advanced Technology

Microneedling - \$250

Designed to improve the appearance of scars, stretch marks, and fine lines. Great for someone looking for treatment that's more aggressive than microdermabrasion but might not be ready for laser treatments.

IPL Laser Rejuvenation

Laser technology removes hyper-pigmentation through a process called photo rejuvenation. Using a pulsed broadband light, imperfections are gently heated and eliminated, giving your skin a youthful appearance.

Pixel Laser Skin Resurfacing

Skin resurfacing laser that creates thermal channels causing collagen to rebuild the skin's surface to tighten and improve texture.

Ultherapy

FDA Cleared Ultrasound technology is used to reach the deeper musculature layers beneath the skin causing tightening to provide lift to sagging jawlines, upper face or lax browline.

Ultherapy Pixel and/or IPL packages are available. Consultation for pricing.
